# WebOrderEntry

For registration of **WebOrder** via **WebOrdersTrade** must first **LogIn** information have been communicated from **SawmillCompany** along with **LoginCode** (**PIN**) with the corresponding **PassWord**!

The **WorkStation** to be used for **WebOrdersTrade** beings must have an **RDP** file installed and appropriate writing to be copied as a **ShortCut** to the **DeskTop** for easy starting of **WEBLOGIN**-program

 Press on **WebLogin**-icon for *connection* to the **WebOrderServer**! Via **SawmillCompany**, shall this **RDP** file be **configured** to contain all the information to the proper *connection* to the **SawmillCompany** dedicated **WebOrderServer**.

When you try to **access** the following **ProgramForm** is to be *answered* by the two valence:
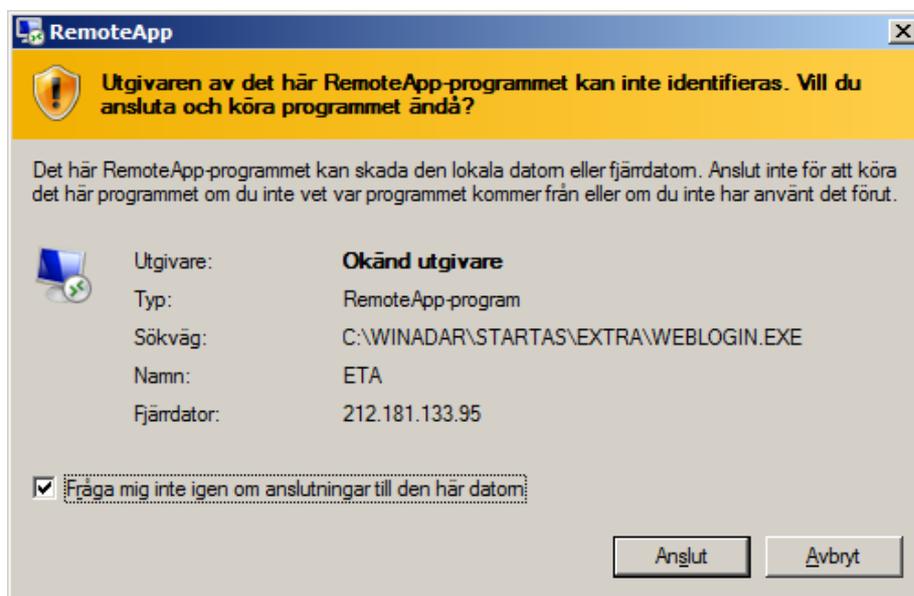

Select the **'Do not ask me again'** then this **ProgramAnnouncement** no longer appear at the next connection. Press the **Connect**-button for further processing

Select the **'Remember this'** will not be asked for the **PassWord** again. (**Password** must be submitted to the knowledge of **SawmillCompany**)

For *connection* to **WebOrderServer** shown below **ProgramForm** as an example: (Note (**WAN**) IP-address)

If the *connection* fails, it may be because (**WAN**)**IP**-address is no longer correct due to the **ISP** have changed it to another. (This can happen if the traffic has been down a long time) (Ex: holiday)

The **ProgramForm** is displayed when the **connection** is successful, so that the assigned **PIN**-code can be entered:

PIN-code and PassWord

Pinkod: 101101 Lösenord: ******** Enter the assigned **PIN**-code and the **PassWord** to control the 'LOGIN' to **WebOrderTrade**!

If an incorrect **PIN**-code is entered then the below **ErrorMessage** will be shown: (PIN-code: 123123 is given,)

STÄNG
Only **3** failed *attempts* allowed, and after these are done '**LOGOUT**' automatically. If this is so must contact to the **SawmillCompany** be done to *verify* the information provided.

The information has to be *checked* are: Customer Identity, **PIN**-code and **PASS**-word! (Indicate the assigned)

An approved '**LOGIN**', the following *choice* of **ScreenSize** performed:

Välj max storlek på skärmen!   Start 1280*768 [1]   Start 1600*1050 [2]
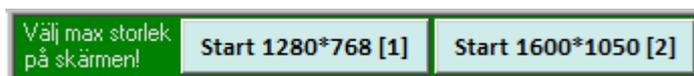

Displayed info pertains **DisplayMonitor** permitted dissolution. Select [**1**] or [**2**] for further process.

▶ Skärmstorlek 15 " ▶ Upplösning 1366 x 768
▶ Bildformat 16:9 ▶ Bakgrundsbelysning CCFL
▶ Svarstid 8 ms

This **DisplayMonitor** allows only choice [**1**] therefore resolution can not handle the higher resolution that choice [**2**] requires.

▶ Skärmstorlek 22 " ▶ Upplösning 1680 x 1050
▶ Paneltyp TN ▶ Bildformat 16:10
▶ Bakgrundsbelysning LED

This **DisplayMonitor** allows both choices [**1**] and [**2**] when the resolution is higher and can handle the larger **Application-Form** requirements for this.

Note also that the choice [**1**] provides an **ApplicationForm** with *basic* features compared to elections [**2**] which gives better choice of *selection* for **WebOrderTrade**!
